

BIODIVERSITY POLICY

1.0 PREAMBLE

1.1 In accordance with the duty imposed on town and parish councils by Section 40 of the Natural Environment and Rural Communities Act 2006, updated by Section 102 of the Environment Act 2021, Langford and Ulting Parish Council will in exercising all its functions have regard to the purpose of conserving biodiversity. This duty also means that town and parish councils can spend funds in conserving biodiversity.

2.0 DEFINITION

2.1 According to Defra (Biodiversity 2020), biodiversity is the variety of all life on Earth. It includes all species of animals and plants – everything that is alive on our planet. Biodiversity is important for its own sake and has its own intrinsic value. A number of studies have shown this value also goes further. It is the building block of our ‘ecosystems’. These provide us with a wide range of goods and services that support our economic and social wellbeing. These include essentials such as food, fresh water, and clean air, but also less obvious services such as protection from natural disasters, regulation of our climate, and purification of our water or pollination of our crops. Biodiversity also provides important cultural services, enriching our lives.

3.0 AIMS AND OBJECTIVES

3.1 The object of this policy is to work towards enhancing and protecting the biodiversity of Langford and Ulting. Langford and Ulting Parish Council will consider sustainability, environmental impact and biodiversity when making decisions and will develop and implement policies and strategies as required. In particular, Langford and Ulting Parish Council will aim to improve the biodiversity of the area in the following ways:

- Consider the potential impact on biodiversity represented by planning applications.
- Manage its land and property using environmentally friendly practices that will promote biodiversity.
- Support local businesses & council operations in the adoption of low impact practices.
- Support residents and local organisation activities to enhance and promote biodiversity.

BIODIVERSITY POLICY

4.0 ACTIONS

4.1 Planning applications

- The council, when commenting on planning applications, will support site and building design that benefits biodiversity through the conservation and integration of existing habitats or provision of new habitats.
- It will support protection of sensitive habitats from development and will consider whether the development would mean the loss of important habitats for wildlife in respect of all applications.
- It will consider what each proposed development might make in terms of biodiversity net gain.
- It will consider including policies in support of biodiversity within the neighbourhood plan when it is up for review again.

4.2 Land and property management

- The council will consider the conservation and promotion of local biodiversity with regard to the management of its open spaces. This will include adopting beneficial practices with regarding to cutting and removal of vegetation, application of chemicals and timing of maintenance work.
- Special care will be taken in the specification of grounds maintenance contracts to ensure that the work, whilst reaching acceptable standards, does not harm the natural environment.
- The council will consider biodiversity issues and the implementation of changes when managing its buildings.

4.3 Local community

- The council will raise public awareness of biodiversity issues, including through its website and newsletters.
- The council will engage with local businesses and residents regarding biodiversity in the community and how members of the community can assist and make a difference.
- It will, where feasible, involve the community in biodiversity projects on its land including for example tree planting, wildflower meadows, birdbox making.

BIODIVERSITY POLICY

5.0 ACTION PLAN

SITE/OBJECTIVE	ACTION	OUTCOME	TARGET(YEARS)	REPORTING/PUBLICITY
Whole council area	Raise local awareness of biodiversity.	Gain local support for action.	Ongoing	Parish Magazine
	Encourage suitable planting to support biodiversity.	Connect and diversity habitats to meet the needs of a variety of wildlife species.	Ongoing	Parish Website
Common and Open Spaces	Encourage residents to pick up litter and take part in annual litter pick.	Protecting and enhancing habitats	Ongoing	Parish Magazine/Website
Support Community Projects	Support hedge/tree planting in any appropriate area.	Extending habitats and promoting biodiversity,	Ongoing	Parish Magazine/Website/Notice Boards
